

PLUS Projectors

The versatile projector range for classroom and meeting room environments

Smaller than the size of a magazine and with a weight of only 2kg, these projectors deliver a brightness of 1600 ANSI lumens.

Now you have projectors that will meet all your demands for the highest quality: PLUS 's U5 Series of DLP™ technology projectors.

DLP™ technology offers a variety of advantages, such as high picture contrast, precise reproduction of digital signals and stable picture quality without image deterioration.
